Re: Wastewater Master Plan Update

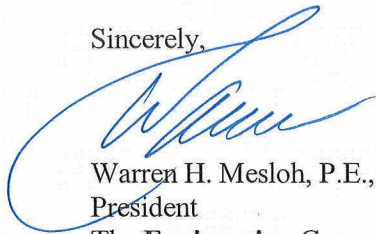

Dear Board Members:

We are pleased to submit our Wastewater Treatment Master Plan for the St. Vrain Sanitation District. This report summarizes the results of our review of the District's wastewater treatment system. It includes growth and flow projections used for identifying and sizing wastewater system expansion requirements necessary to serve those projected needs.

We would like to take this opportunity to thank the Eric, Jeff, Rob, and Lee for their willing help and contributions to this report including obtaining necessary treatment data, offering opinions and for their guidance in the planning for the District's future needs. We are grateful for the opportunity to serve the District and look forward to the opportunity to do so again in the future.

If you have any questions concerning this report or if we can be of assistance in any way, please do not hesitate to call.

Sincerely,

Warren H. Mesloh, P.E., CCE  
President  
The **Engineering** Company
